

Icicle Beach Master Duty Guidelines

Introduction The role of Icicle Beach Master does not require specific skills or training.

This duty is to assist with speedy and organised launching and recovery of boats during our Icicle Open Series

You may have to go into the water to waist height to give assistance with launching and recovery so a wet or dry suit will be required.

All of the trollies should have a label on them with the sail number, once the boats are launched the trollies are ordered so after racing you will easily be able to locate the trolley and recover the correct boat

Time of arrival at the Club 10 am duty completed once racing is completed for the day and boats all returned to shore

It is important to let the other people that are on duty know that you have arrived and what role you are carrying out. Please order your lunch at the Galley before you start your duty. You get a small allowance for being on duty.

BBSC is wholly run by volunteers.
